

Planning a Placement Navigation

1) Click “Place” Menu option in side nav > “Plan” to load plan screen.

2) Users can also access a Plan Placement form from their dash on the HP, by adding a “plan a placement” icon widget to their dash HP.

Plan A Placement Form

—Users can select the type of objective and then manually type in more detail if necessary.

—Users can preview and then add objective to the list underneath.

—The objectives added below has an edit icon (three dots) which allows user to move, edit or favourite/prioritise an objective.

i) The author login name is automatically added to the objective unless manually changed.

—The user can save the single plan OR if multiple, will add each plan as an editable card underneath.
Users can also print plans.

— The ability to attach/tag a student’s name to the plan can be incorporated with either tag or plus icon to enable multiple industry placements.

———————————————

— A “coaching” or “walk through” illustration cculd be added at the top or bottom of the form to guide users

— An option to auto-populate boxes can be provided depending on the replication of the same work place for another student.
